

Ochoco National Forest

Alternative C—Modified

MA-F1 Black Canyon Wilderness - Protect the wilderness ecosystems. Manage use to maintain a natural setting and preserve solitude.

MA-F2 Bridge Creek Wilderness - Protect the wilderness ecosystems. Manage use to maintain a natural setting and preserve solitude.

MA-F3 Mill Creek Wilderness - Protect the wilderness ecosystems. Manage use to maintain a natural setting and preserve solitude.

MA-F4 North Fork Crooked River Wilderness Study Area - Management will maintain the existing conditions of the area for potential wilderness designation pending a decision by Congress or until released from further consideration.

MA-F12 Eagle Roosting Areas - Provide winter roosting habitat for migrating bald eagles during the period December through April, annually.¹

MA-F16 Bandit Springs Recreation Area - Dispersed, nonmotorized recreational opportunities, within a setting where management activities are generally not evident to the casual observer. The recreational activities and opportunities will be expanded beyond winter recreation to year round activities.²

MA-F23 North Fork Crooked River Recreation Corridor - Management will maintain the appearance of a natural landscape in the foreground view from Road 42 to enhance recreational and scenic values. Management activities will protect and enhance public use and enjoyment of the river segment.

MA-F24 North Fork Crooked River Scenic Corridor - Management will maintain and enhance a natural appearing landscape and protect the scenic river designation.

MA-D2 Big Game Winter Range - Manage for Big Game Winter Range habitat.

MA-D3 Big Game Summer Range - Manage for Big Game Summer Range habitat.

MA-D4 Old Growth - Provide habitat for wildlife species dependent on Old Growth stands.

MA-D5 Retention Foreground - Provide a scenic, natural view so that management activities are not evident in the foreground.

MA-D6 Partial Retention Foreground - Provide a scenic, near natural view where management activities remain visually subordinate to the natural landscape in the foreground.

MA-D7 Partial Retention Middleground - Provide a scenic, near natural view where management activities remain visually subordinate to the landscape in the middleground.

MA-D9 Semiprimitive Nonmotorized - Provide roadless nonmotorized recreation opportunities in a natural or natural appearing setting with minimum sights and sounds of human activity.

MA-D10 Semiprimitive Motorized - Provide motorized recreation opportunities, without developed roads, highway vehicles, or concentrations of people in a relatively natural appearing environment.

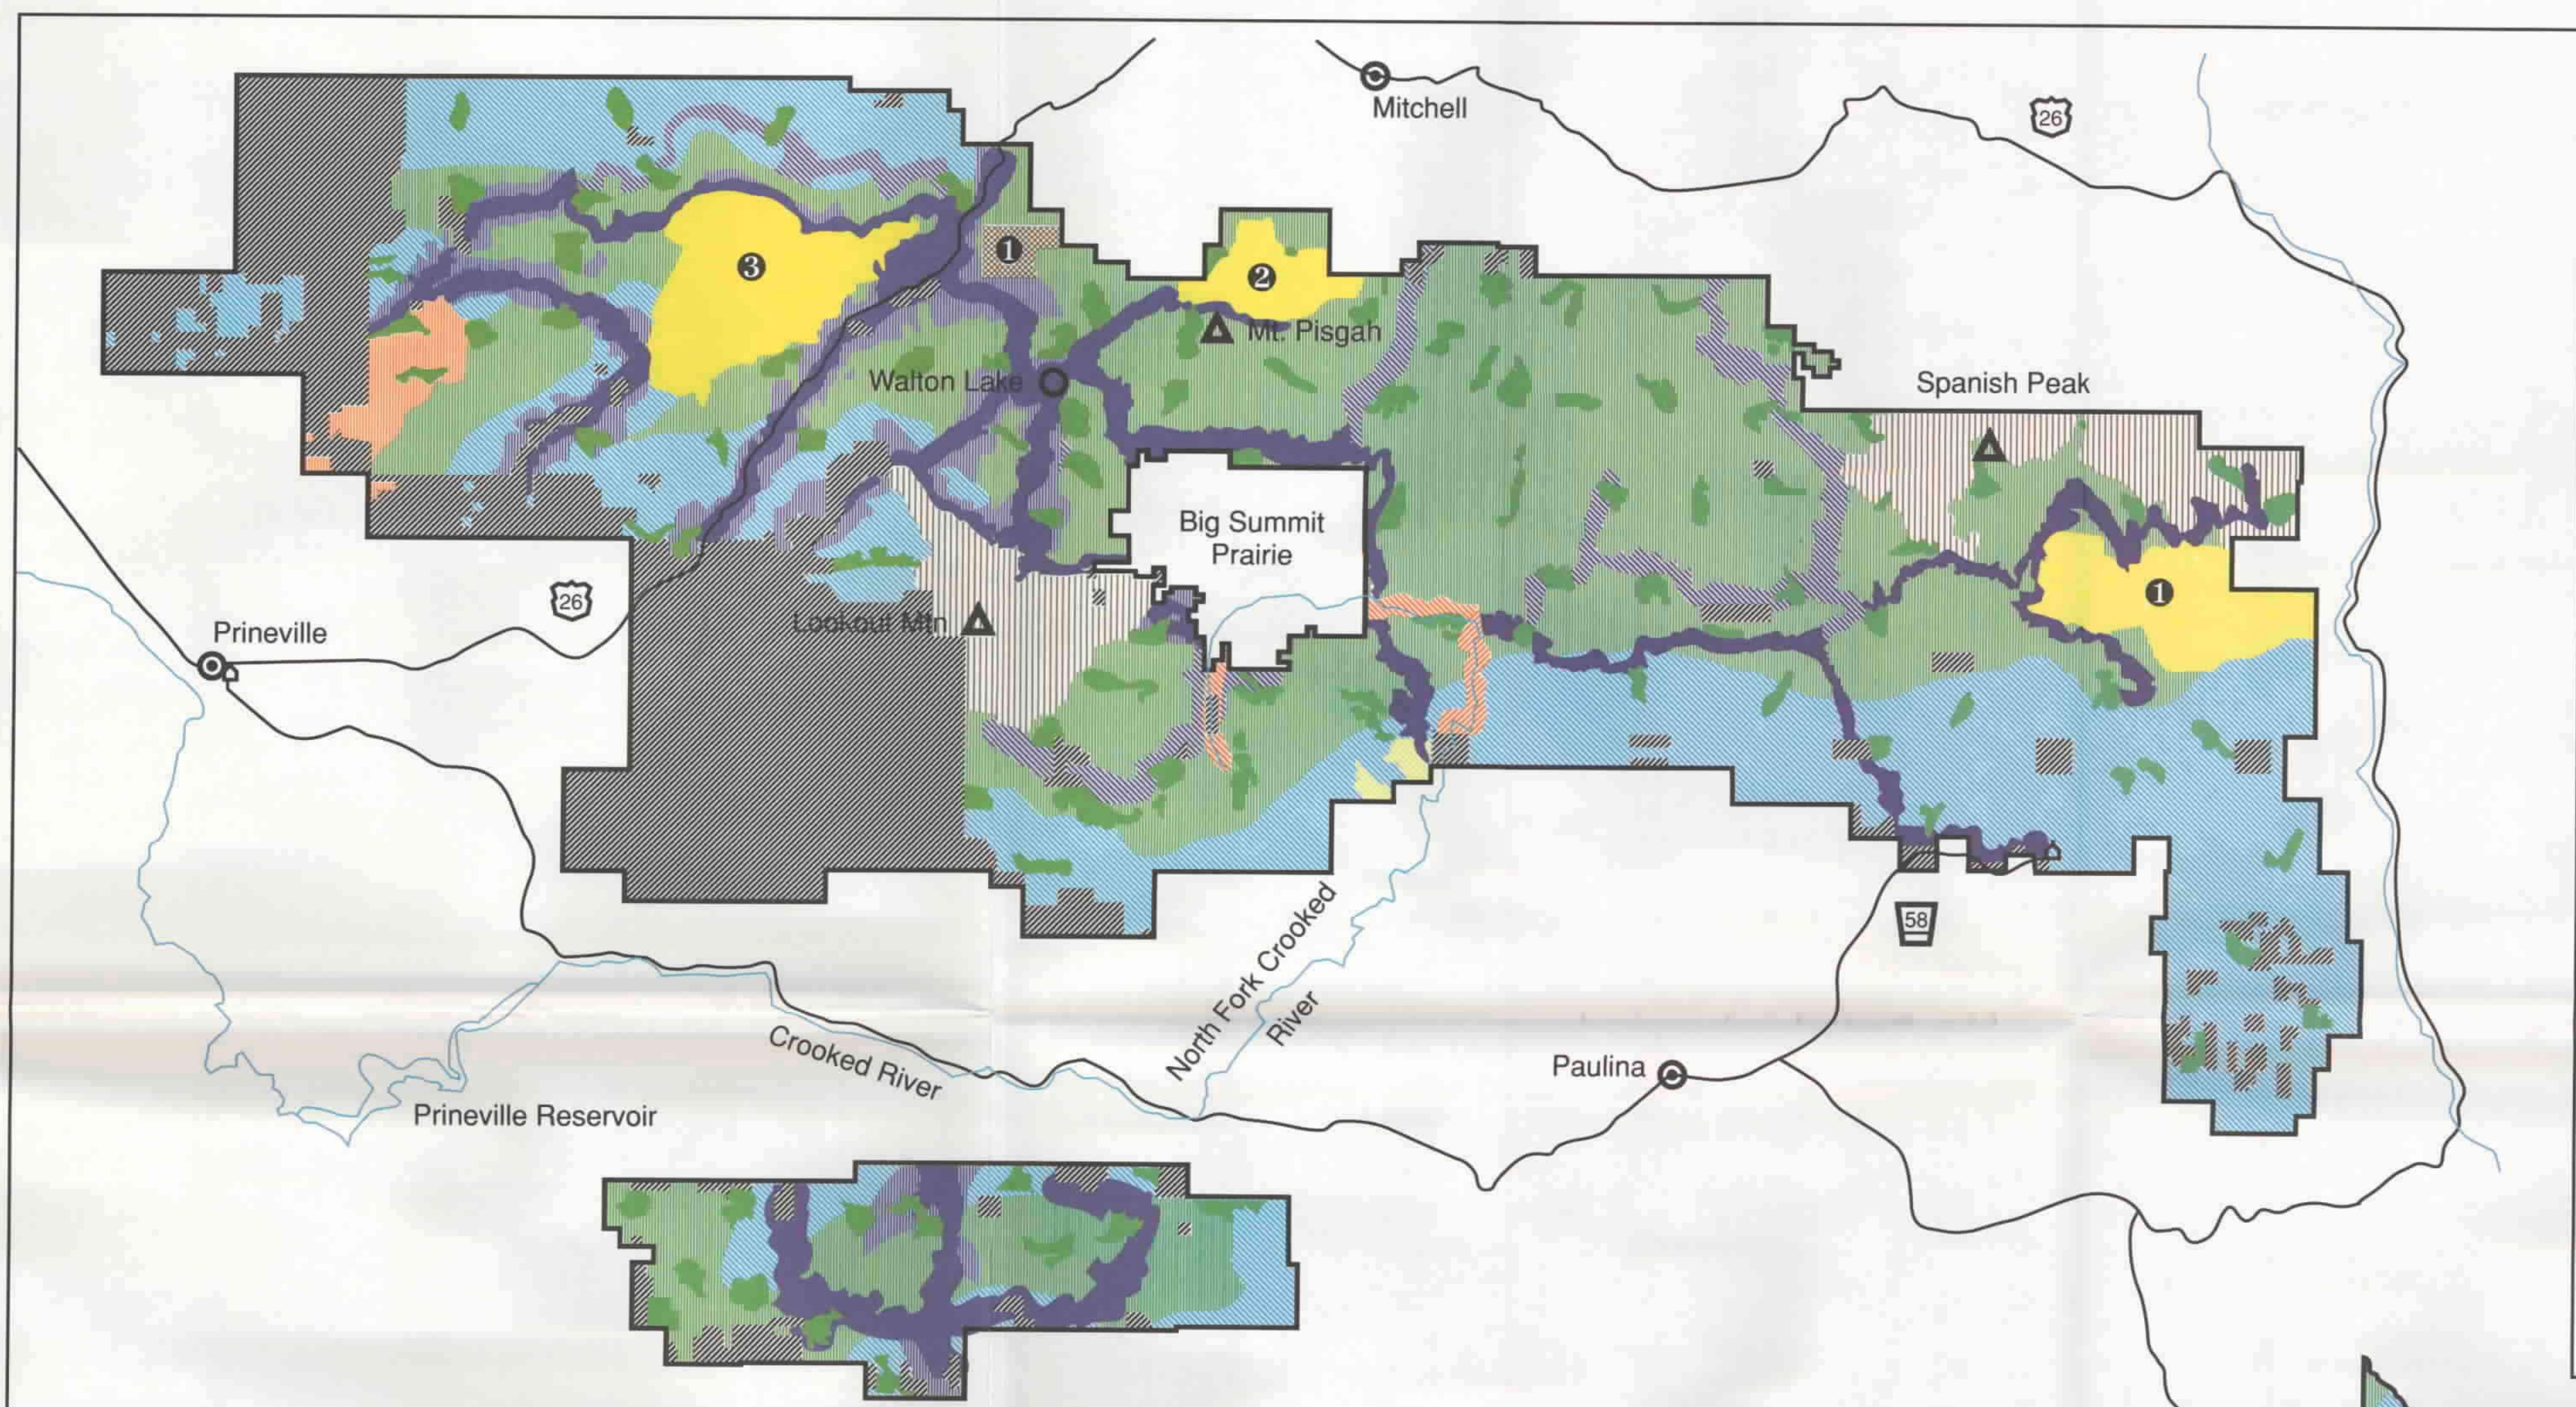

MA-D11 Developed Recreation - Provide and maintain safe, healthful, and aesthetic facilities for people to utilize, within a relatively natural outdoor setting, while pursuing a variety of recreational experiences.³

MA-D12 Research Natural Areas - Provide opportunities for research, education, and ecological benchmarks in naturally occurring ecosystems where natural processes are maintained.

¹) The positions of the six Eagle Roosting Areas are not shown on this map. They are shown on the maps for Alternative I and Alternative B-Modified.

²) The Bandit Springs area is shown as visual retention on this map. It is shown separately on the maps for Alternative I and Alternative B-Modified.

³) The positions of the thirty Developed Recreation areas are not shown on this map.
